30 September 2022

Dear Dolonchapa Prabhakar,

Congratulations! You have been selected to receive a Student Travel Grant to participate in the 2022 American Geophysical Union (AGU) Fall Meeting, 12-16 December 2022, in Chicago, Illinois, USA and online everywhere. In receiving your award and participating in the Fall Meeting, you join a community of AGU scientists working together to solve pressing global challenges that will forge and shape your career into the future.

Your travel grant is in the total amount of \$1000 USD, with funds provided by the AGU Student Travel Grant Endowment. AGU's Student Travel Grant programs are supported by AGU's generous donors who are committed to enabling the next generation of scientists to access the transformational experience of AGU's Fall Meeting.

A grant in the amount of \$1000 USD will be disbursed to help recoup costs associated with participating in an in-person meeting. Eligible expenses include, but are not limited to, meeting registration, housing accommodations, travel expenses, visa fees, poster printing fees, personal expenses, etc. If a recipient's Fall Meeting related costs total less than \$1000 USD, the remaining funds must be used towards educational expenses (tuition, fees, housing, transportation, loans, etc.). In-person attendees will be required to participate in at least one full day of Fall Meeting program offerings and must submit both a brief written report and an expense budget after the conclusion of Fall Meeting.

To accept your award, you must log into the [AGU Grants & Scholarships Site](#) and complete the acceptance form **by 13 October, 11:59 P.M. ET**. Some banking information is required as part of your acceptance. To access the form, click on "My Account" and then "Needs Attention". **If you have questions about completing the acceptance form, please contact [grants@agu.org](mailto:grants@agu.org).**

Please note that in your acceptance form, **you must confirm your participation type as virtual or in-person** (this confirmation should be identical to that which you indicate in abstract acceptance and registration). AGU cannot guarantee its ability to accommodate changes to your participation type after the deadline. **If you select in-person attendance, you will be asked to provide documentation in your acceptance form confirming that the US is authorizing travel from your country of residence and that Covid-19 travel regulations allow you to attend Fall Meeting.**

This email will serve as your official award notification, so please print/save this email as well as the acceptance form. If you do not formally accept by the deadline, AGU will assume that you decline this award, and the grant funds will be reallocated.

Congratulations again on receiving this award. We look forward to meeting you.

**Please contact the AGU Grants Team at [grants@agu.org](mailto:grants@agu.org) with any questions regarding your award.**

Regards,

Erik Hankin
